

Business Questions

1. What is the overall attrition rate?

- Overall Attrition Rate = 39.36%
- Out of roughly 3,000 employees, about 39 out of every 100 employees leave.

2. Which education groups have the highest turnover?

Attrition by education level:

Education	Average Attrition
Masters	48%
Bachelors	38%
PhD	26%

Finding: Employees with a Master's degree show the highest turnover, followed by Bachelor's degree holders.

3. Does attrition vary by city?

Attrition by city:

City	Average Attrition
Pune	51%
Bangalore	35%
New Delhi	34%

Finding: Yes. Attrition varies significantly by city. Pune has the highest employee turnover, while Bangalore and New Delhi are considerably lower.

4. Is attrition related to age?

From the age trend chart:

- Attrition is highest among employees aged 24–26 years (around 52–53%).
- Attrition gradually declines as age increases.
- Employees aged 38–41 years show the lowest attrition (around 30–34%).

Finding: Yes. Younger employees are more likely to leave, while older employees tend to stay longer.

5. Does employee experience affect turnover?

Attrition by experience:

Experience (Years)	Average Attrition
2–3 years	43%
0–1 years	37–38%
4 years	39%
5 years	34%
6 years	25%
7 years	33%

Finding: Attrition peaks around 2–3 years of experience and generally decreases as employees become more experienced.

6. Are benched employees more likely to leave?

Bench status attrition:

Bench Status	Average Attrition
Yes	44%
No	39%

Finding: Yes. Employees who have been benched are more likely to leave than those who have not.

7. Which payment tier experiences the highest attrition?

Attrition by payment tier:

Payment Tier	Average Attrition
Tier 2	60%
Tier 1	35%
Tier 3	34%

Finding: Payment Tier 2 experiences the highest attrition by a large margin.

8. What employee profile has the highest risk of leaving?

Combining the strongest attrition indicators:

Highest-Risk Employee Profile

- Located in Pune

- Holds a Master's degree
- Aged 24–26 years
- Has 2–3 years of experience
- Has been benched
- Belongs to Payment Tier 2

This profile combines the highest-risk categories observed across all attrition drivers and would be the primary target group for retention initiatives.
